## STARTERS

### Beliefs, Values & Attitudes

#### /// Where do you begin?

Rich, buttery reflection upon personal beliefs & pedagogy, topped with crispy intentionality.

#### /// Reflecting on Environment

A small fire-grilled serving of identifying current practice & values presented in the classroom.

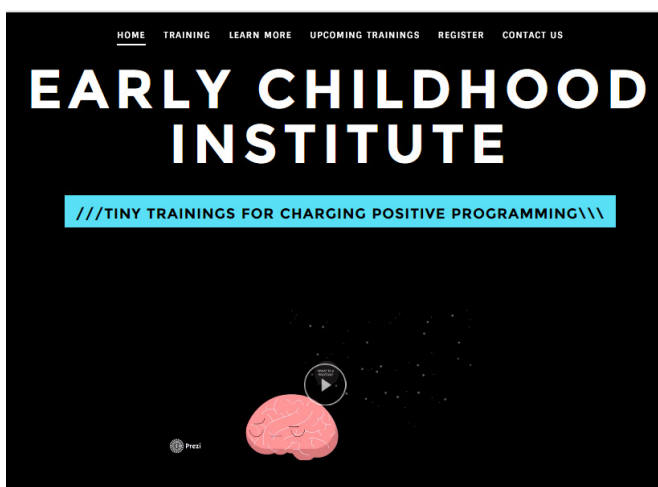

#### /// Defining Developmentally Appropriate Practice

Simple and delicate balance between child-initiated & child-centered experiences in mouthwatering meaningful play.

#### /// Beginning to Understand Behavior

A new twist on classroom behavior, tossed with an emphasis on ACTing to support organic social development.

>>>CHECK US OUT ON THE WEB!!!

## SMALL PLATES

### Physical Environment

#### /// Community Spaces for Language Development

Classic intentional use of gathering spaces to support language development within families.

#### /// Documentation & Making Learning Visible

Using documentation of learning garnished with interactive displays for the children's usage.

#### /// Shared, Small & Spontaneous Spaces

This dish is meant to be shared, with a surprising pairing of questioning strategies and learning to live in the moment.

## Executive Function

#### /// Introduction to Executive Function

A palate-cleanser for traditional plates, which pairs defining characteristics with real-world examples & application.

#### /// Developing Working Memory

A multi-sensory experience, blending flavors of daily routines & lesson plans to enhance skill development.

#### /// Supporting Mental Flexibility

A simple blend of identifying strategies & action planning which enhances classroom practices.

#### /// Promoting Self-Control & Self-Regulation

A small portion with robust flavor, drizzled with educational psychology & critical processes for inhibitory development.

\*Please note: Consuming long, boring, lame and non-creative Professional Development may increase your risk of poor student misbehavior, disengagement and high levels of teacher stress. Please inform your server/coach about any allergies, such as close-mindedness, inability to process fun, or learning intolerance.

## ENTREES

### Intentional Planning

#### /// Observing Play Schema

A pan-seared critical look at children's play & identifying relevant interests.

#### /// Developing & Researching Concepts

Digging into the deeper side of learning, & a heaping dish of research to enhance aromatic vocabulary.

#### /// Hook Lessons

A lighter offering focusing on initial delectable experiences that could build into investigations.

#### /// Planning Meaningful Experiences

A savory serving, highlighting meaningful, child-centered experiences related to key concepts.

#### /// Objectives and Daily Lesson Plans

Translating investigations & general learning goals into a smooth satisfying daily serving size.

#### /// Beginning to Rethink Whole Group Time

A garden-fresh course on a traditional classic, looking at circle time as a routine without seasonal flare.

### Learning Environment

#### /// Establishing the Environment

Gourmet overview of classroom environment, with a focus on natural, authentic materials.

#### /// Positive Interactions & Feedback Loops

A flavorful signature dish of exploration into tender conversation & layered with thought-provoking questioning strategies.

#### /// Promoting Culturally Responsive Practice

Promoting a flame-grilled diverse experience where all children are welcome to learn.

#### /// Schedules, Transitions & Routines

A sautéed smothered evaluation of classroom routines & drizzled with transitions to support & assess learning.

### The Mentally Healthy Classroom for Very Young Children

#### /// Growing Great Brains

A fiery but yet sharp tasting dish about the science of the growing brain & its impact on social emotional development & early childhood mental health.

#### /// Preventing & Overcoming Toxic Stress

The first step to prevent & overcome toxic stress is to recognize the risk factors that are harmful to children & families. This robust & full-bodied experience will provide home and classroom based strategies to reduce the impact of stress & provide trauma informed care.

\*Please note: Consuming long, boring, lame and non-creative Professional Development may increase your risk of poor student misbehavior, disengagement and high levels of teacher stress. Please inform your server/coach about any allergies, such as close-mindedness, inability to process fun, or learning intolerance.

## **/// Behavior has Meaning: Unlocking the Challenging Behavior Code**

Dive deep into the bittersweet cause of behavior and sustainable classroom strategies that can be used to prevent challenging behavior and also reduce this behavior that is already happening.

## **/// Supporting Executive Function and Resilience in Very Young Children:**

Trend-setting executive function provides a direct link to positive social emotional development and later success in school and life. In this experience diners will come to understand the herbal components of executive function and acidic strategies to support children as they develop these skills.

## **/// Mentally Healthy Families=Mentally Healthy Kids**

Parenting is among one of the most difficult tasks that one can encounter in life. This zesty main dish supports those who work with families to raise mentally healthy kids in a balanced and mentally healthy family.

## **/// Nature as Therapy for Kids and Adults**

In our busy world of working parents and schools focused on accountability and assessment, children spend less time outdoors than ever before. In this woodsy grass-fed and free range mouthful explore the impact of nature deficient disorder and how spending more time in nature can contribute to mental health and wellbeing.

## **DESSERTS**

### **Utilizing Technology**

#### **/// Communicating Internally & Externally**

A velvety & elegant dish for effective communication with colleagues & families.

#### **/// How to Evaluate Applications & Programs**

A fresh-baked family recipe made from scratch for identifying, analyzing, & selecting effective apps and larger computer-based programs.

#### **/// Enhancing Whole Group Time & Routines**

A cornucopia of flavors, including integrating technology into the most critical elements of the day to enhance individual ingredients.

#### **/// Shared Technology Experiences**

A scrumptious dessert fit for two, the focal point of this recipe is sharing technology with children instead of individuals interfacing with glowing screens.

#### **Keeping it Fresh**

##### **/// Intentionality & Frequency**

A sweet & heavenly closing course on keeping up on research & sprinkled with changing the environment.

##### **/// Mindfulness & Meditation**

A twist of this popular topic, this dish highlights self-regulation & social-emotional awareness with a reduction of challenging behavior.

##### **/// Dual Language Learners**

A fusion of information on this up-and-coming research topic, a split serving of identifying diverse student needs as well as supporting student learning.
